

Recently I hired a Christian man to do some remodeling. He told me of his confusion over so many doctrines, from charismatics and legalists. I told him about your radio ministry and gave him Classic Christianity. He read the book; several days later he thanked me, and said that his life was totally changed by hearing and understanding the Gospel for the first time. Every day after that, I saw him working away with headphones, listening to your radio broadcast. I thought you might like to know about another instance of someone's life being changed by the truth.
