

Classic Christianity is truly a great book of faith! Bob cites awesome wisdom from Holy Scripture, and explains thoroughly and lovingly that the Christian walk is not simply about salvation, but even more about having the Holy Spirit come to live within us. The Scripture references alone are worth more than the price of the book. Countless human stories of the glorious power of the Lord in our lives drive home the messages of God's Word.

I recommend Classic Christianity to all believers and even to seekers after the faith.
